Senate Urged to Change Bill to Shift Part of Levy
On Roads.

Special Despotch to Tax Stx.

Washington, Oct. 21.—The Government will have to pay lineif the taxes due from railroad earnings until a change is made in the revenue law, John Burton Paine, counsel for the Railroad Administration, so informed the Senate Frinance Committee to-day. He urged that a provision be put into the tax bill now being framed to provide for a division of the taxes due between the Government and the railroads themselves during the period of Government control. The committee took no action to-day on Judge Paine's recommendation, It is one of the matters which will go over for a time in order that the committee making the more pronounced of the matters which will go over for a time in order that the committee making the more pronounced of the taxes due between the Government and the railroads themselves during the period of Government control. The committee took no action to-day on Judge Paine's recommendation, It is one of the matters which will go over for a time in order that the committee may have time to obtain full information about it.

Only one change was made in the revenue bill to-day, It provided for instalment payments on motion picture dims. The 10 per cent. tax on the amount of money paid for securing flims outright or leasing them remained unchanged, but the tax is to be pald each.

There were reports in the coffee trade pesterday that a cable had been received from Santos requesting bids for shipment on two steamships to sail during January and March having a combined capacity of 170,000 bags. So far as could be learned, these advices attracted no immediate interest. As the futures market is closed, importers would have no means of hedging cost and freight purchases for forward delvery, and at the moment it seems difficult to secure bids for any large quantity of coffee from interior buysars. Quotations in the local spot market are entirely nominal on the basis of 10%c. for Rio 7s and 15%c. for Santos 4s.

Range of prices:

Wednesday's closing figures and of 3 cents per pound from the high price of last Monday. There appeared to be no fresh factor connected with the selling, but the failure of improving peace prospects to stimulate demand, evidently encouraged bearish senting for increased pressure from the big available supplies of spot cotton in the South. The general list closed barely steady at a net decline of 25 to 76 points.

LIVE TOPICS OF THE COMMERCIAL WORLD

STANDARDIZATION UNLIKELY JUST NOW

Needle Trades Contend "After the War" Problems Need Attention First.

Standardization of wages, hours and labor conditions in the needle trades is not feasible at this time, according to onclusions reached at a preliminar; conclusions reached at a pre conference of representatives of dustry who came here to confer War Labor Policies Board. After the preliminary meeting the delegates met formally with the board yesterday. It was contended by the industry that at present the study of "after the war" problems is of more importance than standardization, and besides so much investigation and preparation is necessary before the latter can be accom-plished that it would be impossible to put it into practice in the near future. The industry made it plain that it de The industry made it plain that it desires to cooperate with the Government to the fullest extent, and to this end will take part in the deliberations of the Chamber of Commerce of the United States and will lay its findings before the Government with the hope that they will be found constructively useful.

In regard to standardisation, a com-

In regard to standardization, a comnittee of eleven was appointed to fundate ways and means to establish to forpermanent organization in the needle inlistries whose duty it will be to cooper-

Says Unions Are Menace.

Special Despatch to THE SUN. BOSTON, Oct. 31 .- Necessity for ing the "menace of unions" and their 'dengerous encroachments' by manuthem was pointed out by W. Frank Shove, president of the National Associaion of Cotton Manufacturers, in an ad-

ere. "Sooner or later the menace of the unions will have to be met and defeated, or it will undermine the whole commer-cial structure," Mr. Shove said.

The industry is to benefit greatly by research work which is being planned, he said. The movement for the use of acceptances in purchasing raw cotton and the proposal to establish a chain of warehouses were pointed to as the most important activities of the association

spidemic interferes with the work of the mills.

In their weekly report H. L. Gwalter & Co. say that the Tokohama market is firm, but business is slow. Canton is quiet: American buyers do not seem to be interested there. The sixth crop is confirmed at 6,000 bales, which is barely half of last year's. Shanghal confirmed at 6,000 bales, which is barely half of last year's. Shanghal con-

are specialty hat houses and that there among them.

Says Profits Should Be Larger. Trials and tribulations of the export merchant were among the chief

Crow acceptances in purchasing raw cotton and the proposal to establish a chain of warehouses were pointed to as the most important activities of the association during the last few months.

Raw Silk Prices Firm.

A better tone pervades the local raw silk market and prices are firm. Holders seem less inclined than has been the case recently to part with their silk at low prices, but no important upward trend is looked for as long as the market is uncertain concerning conservation plans of the War Industries Board and as long as the influenza epidemic interferes with the work of the mills.

inherent in all French women, but which is suppressed under present conditions as to outer garb, is finding a way to express itself in the purchase and wearing of luxurious under apparel, is the statement of a retail buyer for a large undergarment department store who recently returned from Paris.

"The French women are buying more costly under apparel than ever before, she said. "Not many novelties are shown, most of the merchandise being of fine linen, slik or creps de chime—all of it expensive, but apparently not so

Clothing Men Blamed for Over Production

ANUFACTURERS are to blame for the early reduction sales of garments by New York stores this year, according to merchandise men.

They say the manufacturers purchased too much cloth and made up too many garments, which they then oversold to the retailers, thus glutting the market.

Wool Ruyers at Buenos Ayres, Special Despatch to THE SC.

Boston, Oct. 31. — The party of American wool buyers delegated by the Government to purchase wool in South America for the Quartermaster Corps has reached Buenos Ayres, according to a cable received here.
